CORPORATE CLOTHING

Product catalog
and technical size guide

ENGLISH EDITION / 14 OCTOBER 2026

One collection. Clear product references.

Browse by product type, select the printed item code and open its linked measurement chart. The website and this catalog use the same item codes and chart IDs.

01	Dress Shirts	berkam.com/dress-shirts/
02	Business Suits	berkam.com/business-suits/
03	Formal Vests	berkam.com/vests/
04	Trousers & Skirts	berkam.com/trousers/
05	Wool Sweaters	berkam.com/wool-sweaters/
06	Overcoats	berkam.com/overcoats/
07	Jackets & Trench Coats	berkam.com/jackets/
08	Down Jackets	berkam.com/down-jackets/

Sizing notes
Measurements are in centimetres unless the source states otherwise. Original Chinese size designations are retained; no US or EU equivalence is inferred. Charts describe source measurements and do not establish current stock availability. Select the applicable length / sleeve column where a chart contains multiple style blocks.

Images
Original outfit photographs identify the coded pieces. Images marked AI style visualization are reconstructed from original catalog references; fabric, fit and colour must be confirmed against an approved sample.

Dress Shirts

Dress Shirts

Long and short sleeves, closed collars and V-neck styles.

Technical measurement charts

Use the chart ID listed beside each item code. Multi-part charts must be read together. A chart with several length or hem blocks requires selection of the column that applies to the item code.

Source anomalies

A small number of source labels or values are unclear. They are shown as “Source label unclear” or “Verify”, while the original values remain in the internal product master. Confirm these values before approving samples or production.

Style applicability

BERKAM confirmed on 13 October 2026 that the F05-33 men's suit chart applies to all MY-series suit jackets. This mapping is used throughout the catalog and website. Some vest and casual-trouser charts still need a confirmed style mapping.

Units

Keep half-circumference and full-circumference measurements distinct. Fabric weights are reproduced in grams as supplied; the documents do not consistently establish a weight-per-area basis.
